

SS-POESW4P-96

4 ports 10/100Mbps PoE Switch

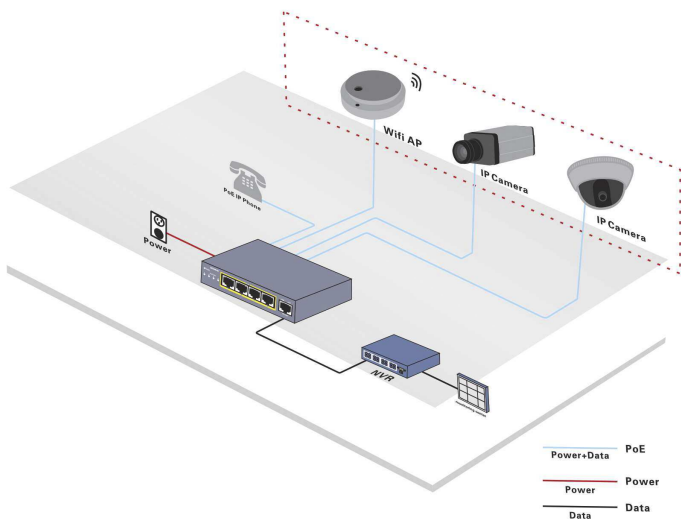

Introduction:

This PoE Switch provides power and data from a single point, using Power over Ethernet(PoE) over a single Cat5 cable. SS-POESW4P-96 series can be used for any 10/100Mbps link and supply industry standard IEEE 802.3 at power. Advanced auto-sensing algorithms give power to 802.3 at end devices. In addition, the PoE Switch automatically determines PoE requirements, speed and duplex. Easy to operate and reliable.

This PoE Switch is ideal for powering PoE devices such as IP cameras, WLAN access points, IP phones, office access control systems, and other PD devices and offers a line of high quality products that provide a total solution for ethernet application in different environments.
